

Student Talent Sharing

During Catholic Schools Week, we will be showcasing students' talents. If students wish, they may create a flipgrid video showcasing their school-appropriate talent (one per person, please). Please follow the links below for the grade-level flipgrid. There are informational videos as well if needed. **Please have your child create their video by Monday, 1/25/21 if they are interested in participating.**

Please note that your child must be signed into their stursula.org school account in order to access the flipgrid. When you click the link, press the blue sign in with google button. If your child is not already signed in with their school account, they will be prompted to do so. If you get an error message, please sign out of all accounts and sign back in with the student's school account. There is a video below for how to sign in.

The flipgrids are set to moderated, which means that SUS will be approving the videos before they are posted for all to see. This means once your child posts their video, they will not see it there until it is approved.
